- A. Color

- B. Image
- C. Multicolored
- D. Dynamic Image
- E. Persistent Colors

Answer: ABC

Question: 4

Refer to the exhibit.

Field_3

A
B
D
E
G
H
C
F

Table_1

Field_3	sum(Field_5)
E	13
A	9
B	9
G	8
H	8
D	5
TOTAL	35

The TOTAL in Table_1 equals 35 instead of 52
What will this indicate about a data model?

- A. There is at least one synthetic key in the data model
- B. The Expression Total is selected as Total Mode in Table_1
- C. There is a many-to-many relationship between Field_3 and Field_5
- D. Dimension Limits are used in Table 1 to restrict the displayed values

Answer: A

Question: 5

A business analyst needs to analyze average sales by product number and country by year. Which measure(s) should the business analyst use?

- A. Year
- B. Average Sales
- C. Average Sales and Year

D. Product Number and Average Sales

Answer: D
