Latest Version: 43.0

Laura, a customer, has instructed you to configure her home office wireless access point.
She plans to use the wireless network for finances and has requested that the network be setup with the highest encryption possible.
Additionally, Laura knows that her neighbors have wireless networks and wants to ensure that her network is not being interfered with by the other networks.
She requests that the default settings be changed to the following.
Wireless Name: HomeWiFi
Shared Key: CompTIA
Router Password: Secure$1
Finally, Laura wants to ensure that only her laptop and Smartphone can connect to the network.
Laptop: IP Address 192.168.1.100
Hardware Address: 00:0A:BF:03:C4:54
Smartphone: IP Address 192.168.1.101
Hardware Address: 09:2C:D0:22:3F:11
INSTRUCTIONS
Configure Laura's wireless network using the network adapter window.
If at any time you would like to bring back the initial state of the situation, please click the Reset All button.

Question: 2

DRAG DROP
Drag each mobile technology to the description of its use. Some answers will not be used.

Description

Description
Devices use haptic confirmation for sharing data wirelessly.

Description
Devices are paired using a code for sharing data wirelessly.

Description
Devices are placed in close proximity within line of sight for sharing data wirelessly.

Description
Devices are connected via a wire for sharing data or connectivity.

Wireless technology

Wireless technology
NFC

Wireless technology
Hotspot

Wireless technology
IR

Wireless technology
Tethering

Wireless technology
Bluetooth

Wireless technology
Cellular

Wireless technology
Lightning

Answer:

1. NFC
2. Bluetooth
3. IR
4. Tethering

Question: 3

DRAG DROP
A customer, Ann, has requested two custom PCs, one to be used for gaming and the other to be used as a virtualization workstation for her business.
The gaming PC should support the latest games and gaming peripherals.
The virtualization workstation should be able to host several production virtual machines as part of Ann's home business.
INSTRUCTIONS
Use the tabs at the top to switch between the PCs.
Objects should be placed on the appropriate slot/display areas and can only be used once.
All slot/display areas should be filled.

Parts List
12GB RAM
24GB RAM
SLI Graphics Card
On Board Video
Dual Monitor Display
KVM
1000W PSW
750W PSW
Liquid Cooling
CPU Fan
7.1 Surround Card
External backup Drive

Answer:

Question: 4

The network administrator has changed the IP address of ComputerA from 192.168.1.20 to 10.10.10.20 and now jane, a user, is unable to connect to file shares on ComputerA from ComputerB using the computer name.

INSTRUCTIONS

Using the available tools, resolve the connectivity issues.

After troubleshooting the issue, verify a successful connection.

If at any time you would like to bring back the initial state of the simulation? please click the Reset All button.

Answer: See the explanation below:

We need to flush the DNS to have the new IP address assigned to the same computer name. Use the ipconfig/flushdns command.

Question: 5

A technician is troubleshooting what appears to be a RAM issue on a PC. Which of the following symptoms would indicate if this is a RAM issue?

A. POST code beeps

B. Distended capacitors
C. Continuous reboots
D. Wrong BIOS time

Answer: C
