## Question: 1

DRAG DROP

A company plans to implement Dynamics 365 Supply Chain Management. Match each manufacturing strategy to its definition.

To answer, drag the appropriate manufacturing strategy from the column on the left to its definition on the right. Each manufacturing strategy may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Manufacturing strategies	Answer Area								
	<table border="1"><thead><tr><th>Definition</th><th>Manufacturing strategy</th></tr></thead><tbody><tr><td>Calculate minimum quantities required to replenish inventory based on historic consumption.</td><td>Manufacturing strategy</td></tr><tr><td>Trigger expensive steps of the value chain by using a sales order or transfer order.</td><td>Manufacturing strategy</td></tr><tr><td>Create a prototype item based on specific requirements.</td><td>Manufacturing strategy</td></tr></tbody></table>	Definition	Manufacturing strategy	Calculate minimum quantities required to replenish inventory based on historic consumption.	Manufacturing strategy	Trigger expensive steps of the value chain by using a sales order or transfer order.	Manufacturing strategy	Create a prototype item based on specific requirements.	Manufacturing strategy
Definition	Manufacturing strategy								
Calculate minimum quantities required to replenish inventory based on historic consumption.	Manufacturing strategy								
Trigger expensive steps of the value chain by using a sales order or transfer order.	Manufacturing strategy								
Create a prototype item based on specific requirements.	Manufacturing strategy								

**Answer:**

Manufacturing strategies	Answer Area								
	<table border="1"><thead><tr><th>Definition</th><th>Manufacturing strategy</th></tr></thead><tbody><tr><td>Calculate minimum quantities required to replenish inventory based on historic consumption.</td><td>Make-to-stock</td></tr><tr><td>Trigger expensive steps of the value chain by using a sales order or transfer order.</td><td>Make-to-order</td></tr><tr><td>Create a prototype item based on specific requirements.</td><td>Engineer-to-order</td></tr></tbody></table>	Definition	Manufacturing strategy	Calculate minimum quantities required to replenish inventory based on historic consumption.	Make-to-stock	Trigger expensive steps of the value chain by using a sales order or transfer order.	Make-to-order	Create a prototype item based on specific requirements.	Engineer-to-order
Definition	Manufacturing strategy								
Calculate minimum quantities required to replenish inventory based on historic consumption.	Make-to-stock								
Trigger expensive steps of the value chain by using a sales order or transfer order.	Make-to-order								
Create a prototype item based on specific requirements.	Engineer-to-order

## Question: 2

### HOTSPOT

A company uses Dynamics 365 Supply Chain Management. The company plans to implement Asset Management.

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

### Answer Area

Statements	Yes	No
Assets are single-level objects. You cannot create sub-assets.	<input type="radio"/>	<input type="radio"/>
You can define locations and assign assets to locations for tracking purposes.	<input type="radio"/>	<input type="radio"/>

**Answer:**

### Answer Area

Statements	Yes	No
Assets are single-level objects. You cannot create sub-assets.	<input type="radio"/>	<input checked="" type="radio"/>
You can define locations and assign assets to locations for tracking purposes.	<input checked="" type="radio"/>	<input type="radio"/>

## Question: 3

### HOTSPOT

A company is evaluating Dynamics 365 Supply Chain Management.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

### Answer Area

Statements	Yes	No
You can initiate new production based on demand, open orders, and historical trends, as well as take into consideration the time to manufacture and ship product to customers.	<input type="radio"/>	<input type="radio"/>
You can account and plan for subcontracting services such as painting metal parts, during production.	<input type="radio"/>	<input type="radio"/>

**Answer:**

### Answer Area

Statements	Yes	No
You can initiate new production based on demand, open orders, and historical trends, as well as take into consideration the time to manufacture and ship product to customers.	<input checked="" type="radio"/>	<input type="radio"/>
You can account and plan for subcontracting services such as painting metal parts, during production.	<input checked="" type="radio"/>	<input type="radio"/>

## Question: 4

DRAG DROP

A company plans to implement Dynamics 365 Supply Chain Management. You need to recommend manufacturing process types for the company.

What should you recommend? To answer, drag the appropriate manufacturing process types to the correct scenarios. Each manufacturing process type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Manufacturing process types**

Discrete

Process

**Answer Area**

**Scenario**

Produce items including food and pharmaceuticals that cannot be reverted to original ingredients.

Produce items including automobile engines that may be disassembled.

**Manufacturing process type**

Manufacturing process type

Manufacturing process type

**Answer:**

**Manufacturing process types**

Discrete

Process

**Answer Area**

**Scenario**

Produce items including food and pharmaceuticals that cannot be reverted to original ingredients.

Produce items including automobile engines that may be disassembled.

**Manufacturing process type**

Process

Discrete

**Question: 5**

A company plans to implement Dynamics 365 Supply Chain Management.

The company wants shop floor workers to register their daily work by using the production floor execution interface.

Which two activities can employees perform by using the tool? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Schedule a production order.
- B. Register scrap quantity during production.
- C. Register raw material consumption.
- D. Clock in and clock out.

**Answer: BD**
